## CAREER OBJECTIVE

Computer Science Engineering undergrad with an experience in machine learning and proven track record to generate results. Knowledgeable in different fields such as web development, machine intelligence and data science. Seeking to fill a role in your company to efficiently utilize my skills and knowledge for the growth of the organization through continuous learning.

---

## CORE COMPETENCIES

Data Analytics | Big Data | Software Engineering | Agile-Scrum Methodologies | DBMS | RDBMS | Deep Learning | Linux | Operating Systems | Computer Networks | Data Structures | Design and Analysis of Algorithms | Theory of Computation | Machine Learning | Artificial Intelligence | Fuzzy Logic

---

## PROJECTS

### STOCK MARKET PREDICTION

- Created a model using Python which predicts the value of a stock analyzing the prices from the past decade or two.
- Capable of predicting for a long term as well as short term
- Uses data analytical tools such as Linear Regression and Logistic Regression
- The model uses Machine Learning algorithms such as SVM, KNN and Random forest algorithm

### RESUME ANALYZER AND GENERATOR

- Developed a software that uses Python NLP to generate a complete resume after receiving user input.
  - Reviews the résumé and filters the qualified applicants based on the parameters.
  - Can be used by recruiters to prioritize each candidate's selection
-

---

## PASSWORD GENERATOR

- Built a Python-based piece of software that creates secure passwords.
- When a user provides customized input, a password strength check is also performed.
- It offers a GUI interface for a more streamlined password generation process.

## ONLINE CODE EDITOR

- An application that supports online coding.
- Additionally, it compiles the code and shows the results.
- Languages used are ReactJS and NodeJS.

---

## EDUCATION

**PES UNIVERSITY**      **CGPA : 8.11**  
Bangalore  
2020 - Present

**DEEKSHA CFL**      **Percentage: 90%**  
Pre-University, Bangalore  
2018 - 2020

---

## SOFTWARE PROFICIENCY

- Advanced Python
- C/C++
- Java
- SQL
- Web Development
- Advanced Linux
- R

## ACTIVITIES

- Open Source Contribution
- Competitive Programming

---

## DECLARATION

I, Abhishek C Hiremath, declare that the information given above is true to the best of my knowledge.

Abhishek C Hiremath
